电话/Phone: +86-0533-6992006. 传真/Fax: +86-0533-6992006

The HY-1000

用途/Application:

本产品用途广泛，可用于热熔胶和微粉等产品的生产加工。

This product is widely used, can be used for the production and processing of melt adhesives and micronized wax, etc.

性能/Performance:

本产品色泽亮白，纯度高、润滑性好，具有良好的光泽度、耐磨性、及耐水、耐化学性等。

This product is the bright white granule, which has high purity, good lubrication and gloss, wear-resistance, water-resistance, chemical-resistance, etc.

技术指标/Index:

检测项目 Item	指标范围 Specification	测试方法 Test method
外观 Appearance	微珠 Microbead	目测 Visual
滴熔点, °C Drop melting point, °C	≥110	ASTM D3954
凝固点, °C Congealing point, °C	≥100	ASTM D938
25°C, 针入度, 0.1mm Penetration at 25°C, 0.1mm	<3	ASTM D1321
149°C, cP Viscosity at 149°C, cP	>10	ASTM D3236
机械杂质和水 Mechanical impurities and water	0	目测 Visual

以上所述及的产品应用信息真实可靠，但我们不对其做出任何方式的保证或担保。也不会给出本产品可用于任何违反专利或其他知识产权的建议或相似的理解或解释。对于本产品的任何应用技术问题请与本公司取得联系。电话:0533-6992006

The above mentioned product application information is true and reliable, but we do not guarantee or guarantee it in any way. Nor will it give any suggestion or similar understanding or interpretation that this Product may be used in violation of any patent or other intellectual property rights. For any application technical problems of this product, please contact the company's research and development center. Telephone: 0533-6992006
